ANGOSTURA BITTERS

Have long enjoyed the highest reputation on the whole of the American continent and the West Indies for their delightful aroma and flavour, as also for their efficacy as a stimulant in exciting the appetite. They were first introduced generally to the European public at the Great International Exhibition, 1862 where they obtained the award from the Jury of "Honorable Mention for Goodness of quality," In India they are highly esteemed for the properties remarked in America, and for their valuable sanative power in all diseases arising from weakness of the digestive organs.

CHIEF AGENTS TO MESSRS. BASS & Co.

MESSRS. FOSTER'S account is the largest on Bass & Co.'s books, and since the establishment of their Business in 1829, their shipments abroad have extended to every leading market of the globe. Their premises for Home and Export trade far exceed in magnitude and perfection those of any other bottler in the world, and afford employment for upwards of three hundred hands.

As a special mark of Messrs. Bass & Co.'s confidence, it may be noted that Messrs. FOSTER are the only bottlers of the Beer who are authorised to place their own labels on the bottles, a fact which is itself is significant, and will be appreciated by all who value the certainty of obtaining a *genuine, pure*, and *unadulterated* article.

The new season's bottling is now forward in magnificent condition, and fully sustains the prestige that half a century's experience has gained for this favourite Beer.

COMMERCIAL INTELLIGENCE.

THURSDAY EVENING, 22ND MAY 1879.

CONSOLS in London yesterday were still quoted at 98⅜, and Enfaced Rupee Paper at 71½ for Fours, and 77 for Fours-and-a-half, but French Rentes were ⅛ higher at 114½.

In the General Produce Market the only change is a decline of 6d. per cwt. in Mid. Plantation Ceylon. Reuter's weekly quotations show no change of any kind.

Piece Goods in Manchester are reported firm, but Cotton in Liverpool closed quiet, sales 10,000 bales of which 1,500 were Surats. On the spot quotations were unchanged with the exception of an advance of 1-16d. per lb. in G. F. Omra, Good Omra, and G. F. Ginned Broach. Respecting arrivals Reuter gives no information, but from private sources we learn that Americans were ⅛d. lower, Surats quiet and unchanged. This morning's Market we hear opened flat, probable sales 7,000 bales, arrivals 1-16d. per lb. lower.

From New York under yesterday's date telegrams quote August shipment of ready Mid-Uplands as having declined from 14·18 to 13·95 cents while ready cotton advanced from 12¼ to 13⅛ cents per lb. We are inclined to doubt the latter quotation, but if correct we fancy it must arise from purchases of ready Cotton—which must now be getting very scarce to cover May deliveries. The receipts at the U. S. ports to date are as follows:—

	This week.	Last week.	1878.	1877.
Wednesday's Receipts	3,000	3,000	3,000	800
Five days' do.	19,000	13,000	12,400	7,500
Total since 1st Sept.	4,361,500	...	4,134,200	3,865,500

The weekly biddings for Council Drafts on India in London yesterday resulted in Rs. 2,46,000 being allotted on Calcutta and Rs. 40,000 on Bombay at an average of 1s. 7¾d., tenders at that rate receiving 83 per cent. of the amounts applied for. As compared with the previous week's biddings these figures show an advance of ⅛d. per rupee due, of course, to the announcement respecting the action of the German Government regarding Silver; but from the fact of the full amount not having been allotted it almost seems that Government had fixed a limit in expectation of it having a greater effect than it really had. Next week's biddings are again advertised for 25 lacs, and Bar Silver is quoted by Reuter at 50¼d.—private telegrams say 50½d. per oz., so that it appears the general idea respecting the announcement wired by Reuter is pretty much as we anticipated in our remarks yesterday. A partial recovery was justified, and has taken place, in the value of the rupee, but we must wait for more definite information before going further, and it remains to be seen whether to-night's debate in the House will give it.

EXCHANGE this morning opened with an advance of 1-16d. in Bank Bills, but no buying rates were named. Later in the day, however, the Banks came out as buyers of private paper at 1s. 7 11-16d. for credits, and a moderate business was done at that. Rather more demand has also been apparent for remittance, both for ready and future delivery, and if anything the tendency at the close is a shade easier, although a good deal depends on what we may hear to-morrow respecting the new sterling loan. We quote:—

Bank Bills on demand	...1s. 7 13-32 to 7-16d. per Re.		
On	6 months' sight	...1s. 7 21-32d.	,,
Credits,	3 ,, ,,	...1s. 7 11-16d.	,,
Documents,	3 ,, ,,	...1s. 7¾d.	,,
France	3 ,, ,,	...2·07	,,

In Gold nothing has been done, but the nominal quotation is about Rs. 19-8 per tola.

On Calcutta demand drafts are still quoted at par to 1-16d. per cent. premium, 60 days' sight at ⅛ per cent. discount at which we learn a considerable business was done yesterday.

GOVERNMENT PAPER is scarcely so firm as yesterday and we have not heard of much business. Quotations are Four-per-Cent. Rs. 102; Old Fours-and-a-half, Rs. 96¾; New Rs. 96¾ to ¼.

The SHARE MARKET is stillfirm, but the actual transactions are very limited. Bank of Bombay shares remain at Rs. 657½ and in Land and Press Companies there is no movement of any kind. Spinning and Weaving Mill shares still show a hardening tendency, and we note an advance of Rs. 5 in Jewraz Balloo and Oriental, Rs. 12½ in Khandesh, Rs. 15 in Bombay United and Khatao Mucoonjee, and Rs. 20 per share in Hindustan.

COTTON has been very dull throughout the day and only a very limited business has been done for export. The dulness in Liverpool and the advance in Exchange are both against the Market, and although holders continue to show great firmness it is evident that a decidedly downward feeling has got hold of the Market for the time being. The receipts yesterday were 6,490 bales, making 44,796 bales for the week ending to-day against 27,000 bales for the corresponding week last year. Closing prices are as follows:—

Good Ginned Broach	.....Rs. 273	per candy.
Good Omra	..... ,, 257	,,
F. G. F. do	..... ,, 251	,,
G. F. do	..... ,, 246	,,

FREIGHTS by steamer for Liverpool opened very firm and 30s. was asked, and in some cases paid for ready shipment, but during the day there were offers to book for June shipment at 27s. 6d. without leading to business. By sail there is no practical change, 17s. 6d. per ton being the quoted rate. For Genoa and Marseilles a steamer for May shipment is still in request, but by the regular line for late June shipment 27s. 6s. to 30s. payable here could be done, and for Trieste and Venice 35s. is now asked. For Havre by steam there is a fair quantity of cargo offering.

PIECE GOODS to-day have again been quiet and transactions have not been large. Sellers, however, are still asking previous prices, nor do they show any tendency to give way. For local made goods the enquiry is weaker but yarns hold their own.

In COALS we have not heard of any fresh business to arrive and the position remains unaltered, an active demand prevailing for cargoes close at hand, whilst distant arrivals are rather neglected.

THE AFGHAN WAR.

(FROM OUR SPECIAL CORRESPONDENT.)

NEWS FROM THE FRONT.

PESHAWAR, MAY 21.

The present arrangement is, that Yakub Khan leaves for Kabul on the 23rd, and will probably be accompanied by Major Cavagnari as envoy, with an escort of Guides Infantry, and Cavalry, under Colonel Jenkins.

Safed Sang is free from cholera, but it has appeared at Jallalabad and in the Khyber Pass; there have been 46 cases at Ali Musjid.

The camp at Gundamuck being unhealthy, a change is contemplated; some troops proceed higher up, under the slopes of Safed Koh.

Mr. Scott, of the Survey Department, has ascertained that Safed Koh reaches to the peak 13,000 feet. He has made other successful observations.

Telegraphic communication with Gundamuck was interrupted on the 19th. Seven miles of wire were cut and carried off from Lundi Kotal. 50 miles of wire have been cut and stolen between Gundamuck and Jamrud up to date.

The *Standard* publishes a telegram that General Lasaroff's reconnoitring force has returned without molestation to Krasnovosk, whence a Russian expeditionary force had been despatched on the 10th May.

THE DEFEAT OF THE RUSSIANS BY THE TURCOMANS.

ST. PETERSBURG, MAY 22.

The *Journal de Saint Petersburg* confirms the news published in the London press of the fighting between the Russians and Tekke Turcomans at Burnak.

The Turcomans were for the first time armed withmodern rifles and took up a position behind a square of camels. The action of the Russians failed owing to darkness setting in during which the Turcomans retreated.

DEPUTATION TO THE COLLECTOR OF POONA.

THE following was telegraphed to us last night from Poona by the Secretary of the Sarvajanik Sabha:—

"Sabha's deputation, consisting of Rao Bahadurs Shrinivas, Gounde and Deshmookh, Messrs. Rajmachikar, Natu, Raste, Jooshi, Kolatkar, Marathe, Chiplonkar, and Sathe, waited upon the Collector this evening and were very courteously received. The deputation expressed concern at the recent fires, and offered to place their services at the disposal of Government. The offer was thankfully received. The Collector deprecated the exaggerated accounts in some of the Bombay papers, and characterized the incendiaries as the enemies of the Poona people. He declared the other fires to be accidental. After some conversation the deputation withdrew."

MR. W. R. PRATT, Collector of Surat, who has been appointed to act as Commissioner of Customs at Bombay, received a tribute of respect and esteem on the 18th inst. from some of the leading citizens of Surat at a social gathering held at the bungalow of a native gentleman of that city. Mr. Birdwood, Judge of Surat, and several other European gentlemen were also present on the occasion. The Municipal Commissioners of Surat and others paid visits of ceremony at Mr. Pratt's bungalow before he left for Bombay.

A MAHOMEDAN, who tried to change a forged currency note for Rs. 1,000 at the Currency Department, Bombay, has been taken up by the police; and there is some reason to fear that similar forged notes may have got into circulation. At first the culprit alleged that he was sent by a clerk at the High Court to cash the note; but he afterwards changed his story and alleged that he found it in one of the Municipal dust-boxes. The police are making enquiries in the matter.

MR. A. D. YOUNGHUSBAND, C. S., who, while Assistant Collector, was severely handled by the Surat rioters on the 5th April 1878, is appointed a magistrate of the first class in the District of Surat.

MR. F. D. MELVILL, Commissioner in Sind, a brother, we believe, of the Hon'ble Mr. Justice M. Melvill, has been appointed to act as a judge of the Bombay High Court during the absence of Mr. Justice Pinhey, so that we shall have two brothers on the Bench of the highest tribunal in this Presidency. Mr. H. N. B. Erskine, Commissioner N. D., will act for Mr. Melvill as Commissioner in Sind.—Mr. Lestock Reid acting as Commissioner N. D. in Mr. Erskine's place. Mr. Arthur Crawford temporarily succeeds Mr. Reid as Commissioner S. D.

SURGEON-MAJOR H. COOK, Civil Surgeon of Kaira, is appointed, during the absence of Dr. W. F. Knapp, to act as Professor of Anatomy and Curator of the Museum, Grant Medical College, and also as Second Surgeon J. J. Hospital.

UPWARDS of a thousand of the Kathiawar immigrants were deported by the Municipal Commissioner yesterday (Thursday) by steamers to Kathiawar. Others will be despatched by sea daily. There has been great mortality amongst these immigrants within the last few days, on account of which, we understand, Mr. Grant has obtained special sanction from Government to proceed with the deportation, pending the grant of the estimated cost of Rs. 10,000 by the Corporation, which body does not meet till the 27th inst.!

THE *Englishman*.—We have had the pleasure of inspecting a very handy little contrivance, invented by Col. McNair, for protecting the hand in holding the Martini-Henri rifle when the barrel becomes heated by rapid firing. It consists of a piece of leather cut to a convenient shape, thick enough to be an efficient non-conductor, and yet perfectly flexible, with two slits which enable it to be passed through the sling. In action the leather is folded round the barrel and tied underneath, with a tie of the same material, attached to it, and when not required for immediate use, it can be folded back and tied flat on the sling, or taken off altogether by detaching the sling, and put away. The cost would be nominal, probably not more than two or three annas per rifle, and in a fortnight every man in India armed with the Martini-Henri could be supplied with it.

THE *Pioneer*:—Some mistakes are commited with such perverted ingenuity that they damage and bronze every one concerned. The attempt to see after the war correspondent as if he were a camp follower was made, no doubt, with a laudable object of benefiting somebody. It was thought perhaps that generals commanding would be more at their ease and enjoy a greater chance of success if the brilliancy radiating from their plans and operations could be somewhat subdued; that they would work better, in fact, with dark lanterns. The supposition, that some of our chiefs display more ability when no one sees them, may be correct enough; but considerations of this kind have not made the press restrictions at all more admirable, as a whole, from whatever point they are looked at. These restrictions have been unfair and a nuisance to everyone: to correspondents, to the public, and to officers in command. In Mr. Boyle's case, for instance, the telegram submitted to General Maude implied, or might well seem to imply, that the relief party sent to Kam Daka had failed in its duty: "Had the relief been *equally resolute* and well-considered," the message ran, "the Mohmunds would have received a lesson which they would never have forgotten." A message of this kind coming from such a mere spectator as a war correspondent, and sent on its own merits, was, whether true or ill-founded, quite a lawful one; to make rules whereby it came to be endorsed by General Maude was a piece of unthinking folly. The D. A. Q. M. G. brought the message to General Maude; and the General thus appealed to had hardly a choice of action. He considered, we understand, that the troops *had* done their duty; —and of course he had more information to go on than Mr. Boyle had. General Maude, by the way, had nothing to do with sending on any intimation to Peshawur: elsewhere the block at the Peshawur Telegraph Office has been explained already. The remarks made above are due to General Maude, and to any other officer placed in the same predicament. They are amongst the victims of the press rules, they might as well be called on to revise the proofs of all war articles in the London daily papers. General Maude was bound, in justice to the troop under him, to act as he did; that by so doing he reduced the rules about press telegrams to absurdity is the fault of those who made them. The rules, experience has shown abundantly, could not work in the field.

THE Military Balloon Committee now assembled were engaged pursuing their experiments at the Royal Arsenal, Woolwich, when their investigations were varied by a somewhat startling incident. Part of their programme is the conveyance of filled balloons from place to place, in order to make use of the prevailing winds, if, for instance, it is desirable to reach a beleaguered town, and it was proposed to attempt this feat yesterday; afterwards to make several captive ascents for purposes of instruction; and, finally, for one or more of the officers to take a voyage in the car. Accordingly the Talisman, one of the Government balloons, was brought out of the balloon-house and inflated at the gasworks. The special car used for captive experiments, which is much deeper than cars in general, was attached, and preparations were then made for carring the whole machine complete to the balloon ground, about half a mile distant. The car, with half a dozen sand bags inside, was fastened to a waggon, by means of which the balloon was to have been drawn along the roads, but the waggon had scarcely begun to move when the rope snapped; two other ropes by which the balloon was held did the same, and the car was about to stand clear as the huge balloon shot upwards. The six bags of sand weighed but 420 lb., and the total burden with the car and netting scarcely exceeded 600 lb., whereas the buoyancy of the balloon with its 19,000ft. of gas, equal to 47 tons per 1,000, was calculated at about 900 lb. This circumstance, coupled with the fact that the neck of the balloon was securely fastened, which is unusual in ascents, induced the belief that the baloon would reach a height of about two miles, when the expansion of the gas in the rarer atmosphere would burst it, and this speculation was amply verified. It went up almost perpendicularly, and before long disappeared to view in the clouds. This was only for a few minutes, for soon its shattered remains were observed rapidly descending, and they fell into the Thames near Erith, whence they were soon recovered and brought back to the Royal Arsenal, Woolwich. The Talisman can be repaired and will doubtless see more service.

THE *Indian Mirror* thinks that "the unwisdom of the policy which led to the passing of the Vernacular Press Act is practically illustrated in the unchecked and rampant character of the organised crime in the Western Presidency. Discontent now takes to the rifle, the sword, and the spear, instead of the pen, to make itself known to the Government. Had the Vernacular Press continued free, we should have had timely intimation of the prevalence of those feelings which have declared themselves in forms of crime that we had believed to be almost impossible under the efficient system of local administration now directing the affairs of India."

WE (*Pioneer*) regret to hear of fifty fresh cases of cholera at Peshawur on the 18th, and twenty-six deaths. This vindicates the prudence of the arrangement lately described, by which almost all the troops hitherto at Peshawur have been removed to more healthy stations.

THE large town of Orenburg, in Russia, has been destroyed by fire. It was a place to which political offenders were frequently banished. The Governor reports that the distress caused by the conflagration was terrible, and the loss sustained by the inhabitants was enormous. Several bodies had been found in the ruins, and half the population was destitute of food and shelter. The village of Gratchenko, on the Volga, has also been entirely burned down.

AN otter has been added to the curiosities of the Westminster Aquarium and all the natural ists have been watching its mode of capturing fish. It ascertains apparently by instinct when living fish have been placed in the aquarium, glides in without almost moving the particles of the water: he keeps his eyes wide open, and turns his head right and left with a quick motion as though looking for prey; swims with great velocity, using the tail as a perfect rudder in and out among sunken trees and amidst other difficulties. As the moment the otter seizes the fish, it forms itself as it were into a ball, so that the fish has not the slightest chance of escape, and the largest in the tank are always those that are first seized. He never attempts to eat under water; always comes to the bank side to have his meal. Yet it will be observed that the otter invariably begins to eat the fish by crunching up the head—never the tail. It has also been remarked that the otter holds his prey by his fore paws, whereas seals swallow their fish whole.

THE Indian Famine Commissioners' report will not be ready until the autumn. The London correspondent of the *Manchester Guardian* believes that the leading members of the Commission—General Strachey, Mr. Caird, and others less known to the public—are agreed upon many points of importance. They have no revolutionary changes to propose. The condition of the finances of India will exercise an apparent influence over all their recommendations, and absolutely forbids the proposal of any further considerable expenditure upon public works at the present time. Mr. Caird, who has returned to his official duties in London, expresses himself as rather favourably impressed by the methods of agriculture adopted in India, especially in those districts where the soil is good and sufficiently watered. He is very sensible of the evils of the money-lending system, and does not feel that a highly-advanced system of agriculture would be generally suited to the condition and circumstances of India.

A RATHER amusing game at diamond-cut-diamond was played the other day in Scotland, when a great demonstration in support of Mr. Gladstone's candidature for Mid-Lothian was held. A great bonfire to burn the "faggots" was got ready on Friday night, and a rumour got abroad that the enemy intended to set fire to it too soon. So a watch was set, and remained on duty till past the shortest hour of the morning. To all appearance, even Peebles could not be quieter than was the vicinity of the bonfire heap when the guard was withdrawn. Yet within an hour the pile was in a blaze, the "enemy" having been only sleeping with one eye shut. The fire was too high for any attempt being made to put it out, but in the morning a little industry soon got a bigger heap together than before, so that there was two bonfires instead of one. Another election trick was to send round in the middle of the night and cover over all the posters in the surrounding villages with a bill announcing the postponement of the procession. It is amusing to learn that wrath and indignation followed upon the two practical jokes. There was surely plenty of violent language about the said enemy spoken in the course of the gathering, to grudge his emissaries the clever ruse of trying to get the bonfire too soon and the meeting too late!

A CORRESPONDENT communicates the following description of a discovery of mammoth remains in the heart of London:—In making the excavations at Charing-cross for Messrs. Drummond's new bank, the workmen, at depths varying from 15 to 30 feet, came upon the fossil remains of various extinct animals. They include elephants' tusks and molars (probably the mammoth Elephas primigenius), teeth and numerous bones of the gigantic extinct ox (Bos primigenius), a portion of what appears to be the horn of the great extinct Irish deer (Megaceros Hibernicus), along with various other remains of ruminating animals not yet identified. All the remains are those of herbivorous quadrupeds, but there is among them no bone or tooth of hippopotamus or rhinoceros, though these huge beasts are known, from discoveries made at Brentford, Crayford, and other localities in the Thames valley, to have been in times long gone by the companions of the Thames valley to human existence. The characters of *O'Grady*, *Fanny Powers* (which was in the hands of Miss Blaine), *Major Coffin* (Mr. Norville), and *Beamish McCool* (Mr. Crofton), were all done justice to. It is a pity that the resources of the theatre in regard to scenery do not afford greater assistance to companies performing such pieces as that in which appropriate scenery is so important an element.

Our readers will scarcely need to be reminded that to-night the performance is for Miss Firmin's benefit. That very popular and talented *artiste* is sure to have a bumper house on the occasion.

Selection	Stiletto	Verdi.
Selection	Prow Narma	Rossini.
Valse	Wein Mein Seimu	Strauss.
Galop	Nur Schell	Roth.

A RUMOUR is gaining ground in Burhanpur that an officer of the Bombay Presidency has been severely injured by a bison in the Chandin jungle.

THE soldier of H. M.'s 78th Highlanders charged with manslaughter at the Kirki station, and who was not identified, has now been arrested and handed over to the civil authorities.

THE VEHAR LAKE.—The height of water in the Vehar Lake for the week ending Saturday, 17th May, was 48 feet and 8 tenths. In the corresponding week last year it was 45 feet and 4 tenths.

CORPORAL PUNISHMENT.—A noted character, named Mahomed Cassum, was yesterday sentenced by Mr. W. Webb to receive 25 stripes for stealing six earthen cups, valued at 10 annas.

THEFT.—A Parsi, named Rustomjee Sorabjee, was yesterday convicted by Mr. W. Webb of stealing 28 sodawater bottles, the property of Jamsetjee Dadabhoy. He was sentenced to three months' rigorous imprisonment.

A FEMALE THIEF.—Luximee *alias* Achoo, woman, was yesterday convicted by Mr. W. Webb of stealing sundry articles of wearing apparel and also of criminal of trust in respect of a currency note for Rs. 5, the property of Ameerbux, woman. She was sentenced to six months' rigorous imprisonment.

CRIMINAL BREACH OF TRUST.—Yesterday two Hindu women, named Nundoo and Chotee, were convicted by Mr. Nana Morojee, prisoner No. 1 of criminal breach of trust in respect of sundry gold and silver ornaments of the value of Rs 506, belonging to Abdool Aziz, and both prisoners of receiving and fraudulently disposing of the said property knowing it to be stolen. They were each sentenced to six months' rigorous imprisonment.

GOVERNMENT APPEAL DISMISSED.—Yesterday at the High Court, Appellate Side, before the Honourable Mr. Justice Bailey and the Honourable Mr. Justice Kemball, the appeal of the Government of Bombay against the acquittal of Govinda bin Bhika by the Session Judge of Thana, who was charged with two others of committing murder, was heard. Mr. Nanabhoy Hurridas appeared on behalf of Government, and Mr. Vinayekrao Harryshund and Mr. Maneckshaw Johangirshaw appeared for the accused. The Court upheld the decision of the Session Judge and dismissed the appeal, the accused being acquitted.

WE see it stated that Wednesday, the 14th, was a fearfully hot day in Nagpore. The Rev. Mr. Cooper, Free Church Mission, had an attack of heat apoplexy and was insensible for four hours. Great anxiety was felt about his case, but we are glad to learn that he is now recovering. There have been several cases during the week at Nagpore.

STATEMENT OF SILVER BALANCE IN THE MINT.—The value of silver in the Mint on the morning of the 12th May was Rs. 1,45,92,626, add silver received during the day Rs. 2,46,938. The sum of Rs. 30,00,000 in new coin was paid during the week; the balance left was Rs. 1,40,92,147. There is in addition bullion valued at Rs. 62,00,925 belonging to private individuals deposited in the Mint vaults and awaiting assay.

MORTUARY RETURNS.—The total number of deaths registered during the week ending Tuesday, 20th May was 498, being 3 more than in the previous week, 27 less than the total of the week ending 21st May 1878, and 24 more than the mean of the corresponding period in the preceding five years. During the week 259 births were reported in the different districts of the city. The rate of mortality per 1,000 of the population was 38·81. There were 161 deaths from remittent fever, being 2 less than in the previous week and 59 less than in the same period last year. There were 11 deaths from cholera last week as compared with 6 in the week previous. The deaths from diseases of the respiratory system, chest and lungs were 42 the last week 42, 15, and 32 respectively, in the corresponding 36, 17, and 24 last year. The following remarks are appended by the Health Officer to his return:—"As there is no allowance made for the increase of population, natural and extraordinary, during recent years, the percentages of mortality are unreliable. From the total number of deaths ought to be deducted 85 deaths amongst famine immigrants from Kathiawar, leaving the mortality at 31·95 per 1,000."

THE WEATHER.

YESTERDAY afternoon the ships in harbour were warned, by the hoisting of the usual signal at the Dockyard flagstaff, that bad weather was anticipated. By midnight, however, all indications of atmospheric disturbance had passed away, and the stars shone out in an unclouded sky. In our notice yesterday of the storm that passed over Bombay on the previous evening, we wrote that it was of a mild character, which was perverted in print to *wild*.

DR. SILVESTER'S ENTERTAINMENT.

DR. SILVESTER takes a benefit on Monday night, when it is announced that an extra attractive programme will be offered at the new Victoria Theatre, Grant Road, where the "Fakir of Oolu" has been performing during his visit to Bombay.

THE CIRCUS.

IN addition to the "gift business" and the normal attractions of the Circus as exhibited in Bombay (in themselves forming a very excellent performance) there was last night an extra "draw" in the appearance for the first time in Bombay of Miss Victoria Cooke. Miss Cooke, though she looked a little delicate after her severe and prolonged illness, performed the two "acts" for which her name appeared in the programme to perfection. She is undoubtedly a most accomplished and graceful *equestrienne*. At the close of each appearance she was enthusiastically applauded, and numerous bouquets were thrown into the ring in acknowledgment of the pleasure her performance afforded the audience. The other features in the entertainment, after a week's absence, seem as fresh as ever. The conduct of the drawing for the gifts bears a very appearance of being conducted in a thoroughly *bond fide* manner. On Saturday night, the grand prize of Rs. 1,000 will be drawn.

GRANT ROAD THEATRE.

MR. JACK'S Company produced Arrah-na-Pogue on Wednesday night, at the Grant Road Theatre, with Miss Firmin in the title rôle, Mr. Wheatleigh as *Shaun the Post*, Mr. Jack as *The O'Grady*, and Mr. St. Maur as *Michael Feeney*. There was a good house, and the performance was a success. Miss Firmin is particularly happy in the character of an impulsive, warm hearted Irish girl; and Mr. Wheatleigh is as perfect a *Shaun* as he is a *Danny Mann* in the "Colleen Bawn." Mr. St. Maur played the not very congenial part of the rascally "process server" and "informer" with great success. The characters of *O'Grady*, *Fanny Powers* (which was in the hands of Miss Blaine), *Major Coffin* (Mr. Norville), and *Beamish McCool* (Mr. Crofton), were all done justice to. It is a pity that the resources of the theatre in regard to scenery do not afford greater assistance to companies performing such pieces as that in which appropriate scenery is so important an element.

Our readers will scarcely need to be reminded that to-night the performance is for Miss Firmin's benefit. That very popular and talented *artiste* is sure to have a bumper house on the occasion.

THE MONSOON.

WE learn that we were misinformed in stating yesterday that the S. W. Burmah had experienced the South-West monsoon up to within 90 miles of Bombay. The information we now have is, that she ran out of it on the 18th inst., 400 miles from the coast. Taking the ordinary calculation that the monsoon travels at the rate of about 25 miles per day, we may expect it to break here on the 4th June.

THE CASE OF CULPABLE HOMICIDE AT KIRKEE.

(FROM A CORRESPONDENT.)

KIRKEE, MAY 20.

DR. A. G. FRAZER, the Railway Magistrate, is here to-day investigating this case, the particulars of which I have already sent you. The prosecution was conducted by Mr. Inspector Ewan Baily, of the Railway Police, whilst gunner Dryly was defended by Mr. H. N. Xavier, Mooktyar. The following is Dr. Frazer's finding:—

William Drylly, Gunner, 1st Brigade Artillery, Peter Brown and William Skeleton, privates H. M.'s 78th Highlanders are charged with having caused the death of one Hurri Mahadoo on the night of the 16th instant, at the Kirkee Railway Station, by throwing him down, kicking him on the left side, breaking three of his ribs, and rupturing his spleen.

I find that there are no sufficient grounds for committing the accused, or any of them, for trial for this offence.

The evidence proves that Hurri bin Mahadoo was killed at the Kirkee Station on the night of the 16th instant. The post mortem examination shows that the immediate cause of the death was rupture of the spleen, and that this was caused by his having been violently thrown down, or by his having had three of his ribs fractured by a kick, or by both of these causes. It is in evidence that on the night in question four soldiers came to the station just as the mail train was starting for Poona, or after it had started. They asked for tickets to Poona, and were of course refused. One of the four was the worse for liquor, and very violent. They went out of the office and round to the back of it, and spoke through the window to guard De Souza, who was in the office, and getting a horse carriage to take them to Poona. The window was kicked and broken. The Assistant Station Master called the police. Witness No. 1, Narayen, constable, and No. 3 Hurri, constable, ran to where the four soldiers were, one of the soldiers seized Hurri, witness No. 1, by the throat and threw him down. He got up, jumped over the wall, and ran away, pursued by three of the soldiers. This witness, No. 3, cannot recognize any of the accused as of the four soldiers who were at the station on the night in question. Witness, No. 1, Narayan, jumped over the wall after witness No. 3. The soldier who remained there, when the other three pursued witness No. 3, took off his belt and beat witness No. 1 with it. Witness No. 1 was then five paces from Hamp, but could not recognize the person who beat him. The other three soldiers came back. He called for help, and Hurri Mahadoo now deceased came to them. Witness No. 1 deposes that at a distance of twenty-one paces he saw accused No. 1 throw Hurri Mahado down and kick him. He recognized accused No. 1 in the dark at twenty-one paces from him only by his height. The next morning at the investigation witness No. 6, Mr. Lyle, picked witness No. 1 in the presence of accused No. 1, if he recognised the latter as the soldier who kicked Harri Mahadoo, and witness No. 1 said distinctly that he did not recognize him as the one who kicked him. In other points the statements of the two constables, witnesses Nos. 1 and 3, differ materially. We come now to the most material evidence that of witness No. 2, guard DeSouza. He conversed with accused Nos. 1 and 2 before the train started, and they were trying to keep the fourth soldier quiet, who was in liquor and very quarrelsome and violent. Witness No. 2 does not know by whom the window was kicked; when the police were called he came on the platform: he heard a cry as if beaten, and on going to him he saw Hurri Mahadoo sitting and vomiting. Witness asked him what the matter was, and he replied that he been beaten by soldiers. Witness left him, as you have not been sworn. You were drunk. There was no policeman near Hurri Mahadoo then, nor any soldiers; he was quite in darkness. There was a lamp burning 21 paces from him, in 10 minutes thereafter Hurri Mahadoo, the deceased, was dead. Witness No. 2 saw the fourth soldier so as to know him and deposes that neither of three accused is he. Witness No. 4 the Assistant Station Master who spoke with the soldiers about the train cannot recognize any of them among the accused. It is reasonable to suppose that the fourth soldier who was intoxicated, quarrelsome, and violent, is the person who actually used violence towards the deceased. This fourth soldier has not been found. Moreover, there is no evidence that he is the one who caused Hurri Mahadoo's death. With the exception of the quite unreliable evidence of witness No. 1, Narayan constable, of the Railway police, there is no evidence against the accused, nor any of them. There are, therefore, no sufficient grounds to commit them or any of them for trial before the Sessions or High Court. They are accordingly discharged under section 195 C. P. C.

The Station Master was very prompt in all his enquiries. The police are not responsible for the failure of the case, as the Police Inspector and Chief Constable conducted their investigation promptly and energetically.

(Signed) A. G. FRAZER.

THE WEATHER AT MADRAS.

THE weather has continued very monsoonish, if not cyclonish, since yesterday. The surf is higher than ever, and all communication with the shipping has ceased. Two ships, we observe, have put to sea, and some of the others have taken up berths further out from shore. Worse weather is expected, and the ships are now (4 P. M.,) being ordered to put to sea. It rained heavily in Black Town from 11 till about 3 o'clock. At the Master Attendant's Office the rainfall received from the out ports seem to corroborate the opinion that there is a storm somewhere in the Bay. The P. and O. Steamer Mongolia, which has arrived from Galle has put out to sea again.—*Madras Mail, May 20.*

NOTWITHSTANDING the signal at the Master Attendant's Office on Monday, denoting a high surf, boats were put to sea for the landing and shipping of cargo, which resulted in the smashing of four Masula boats with considerable damage to cargo. Two boats, while returning from the s. s. Africa with a load of gunnies, were dashed to pieces at the piles of the Pier, and two other boats while proceeding one with cotton to the P. and O. Steamer Kashgar, and the other with staves to the *s. s.* Africa were capsized by a huge wave. Fortunately there was no loss of life. A portion of the cargo was saved. The cotton belonged to Messrs. Arbuthnot and Co., and the staves to the well-known merchant Saravanamoothoo Pillay.—*Madras Times.*

RORKE'S DRIFT AND AFFGHAN ACTIONS IN CONNECTION WITH THE VICTORIA CROSS.

SIR,—I suppose no one wishes to run down the splendid defence of Rorke's drift by its handful of British soldiers; but does it not strike the army at large that a Victoria Cross given for the defence is a little out of place? The Cross was, I believe, first, given during the Crimean War, and was originally devoted to individual acts of gallantry; I believe it is still given for the same purpose.

Now, if the Victoria Cross is given to the two gallant Majors Chard and Bromhead, why should not the rest of the garrison receive it, as they were all behind the same breast-work, and surely the men deserve as much credit as officers? Most will, I fancy, say it is absurd giving a V. C., to so many; but as no individual act appears to have been done, why should any body get it

GRIFFITHS' PATENT WHITE
OR
OXY-SULPHIDE OF ZINC PAINT,

MANUFACTURED BY
GRIFFITHS, FLETCHER, & BERDOE,
SEEL STREET, LIVERPOOL,

Covers 125 per cent. more than Oxide Zinc.
Covers 100 per cent. more than White Lead.
It retains its Whiteness under all conditions.
A Red Heat will not destroy it.
Will never Blister.
Is Non-poisonous—Has no Smell.
Has no Chemical Action upon Metals.

The Patent Zinc White, or substitute for Lead, invented and patented by Mr. Thomas Griffiths, of Oxton, Liverpool, received the highest possible praise at the Meetings of "The Society of Arts and Manufactures," London, and "The Social Science Congress."

THE Manufacture of "GRIFFITHS' PATENT WHITE" formed the subject of a lecture at the Society of Arts in the Spring of 1877, and has been reported upon by the leading scientific Chemists, Paint Merchants, Decorators, &c., &c.; was brought before the International Congress of Hygiene, at Paris, in August 1878, by Professor Lutschaunig and Dr. Phipson; and in the same month before the British Association, in Dublin; in October, a paper was read upon it at the Social Science Congress in Cheltenham, by Dr. Bartlett; and it was the subject of a paper read during the session of 1878 of the Paris Academy of Science. At the Paris International Exhibition, 1878, the highest distinction which was conferred upon paints, viz., the only Silver Medal, was awarded to it, and at the Sanitary Institute of Great Britain it obtained the Prize Medal. It has been most favourably reported on in the "Lancet," "Engineering," "Engineer," "Builder," "Architect," "Chemical News," "Sanitary Record," "Society of Arts Journal," "Scientific American," "Journal of Chemical Society," "Moniteur," "L'Exposition de Paris," "Lloyd's Official List," "New York Tribune," "New York Times," "Comptes-Rendus," of the French Academy of Science, &c., &c. Copies of any of the above reports can be had on application; also samples for trial.

So great has been the demand for it since its introduction, that the proprietors, who were producing about 25 TONS PER WEEK in Liverpool, have been compelled to purchase Extensive Works in London, where they can manufacture about 50 TONS EXTRA PER WEEK. They have also had to secure sufficient room to increase the production to 200 tons weekly, making them the largest producers of White Pigment in Europe.

WHITE LEAD possesses only one good property, viz., "covering power," it is poisonous, soon loses its opacity, and turns yellow with Sewer and other Gases, and prejudicially affects Iron and other metals.

OXIDE ZINC has scarcely half the covering power of lead, but it is whiter and retains its colour.

GRIFFITHS' PATENT ZINC WHITE has all the *good* properties of both the above without any of their drawbacks, viz., it has far more body than Lead, has double that of Oxide Zinc, has the same whiteness, will never change colour even in sulphuretted hydrogen (which destroys lead) and does not lose its opacity by age. It is calcined at a red heat in its manufacture, hence is almost indestructible, and, of course, will stand any variation of climate. Its durability is such that it is admirably adapted for protecting Iron, Wooden or Cement Structures in any exposed situations, from the effects of the weather.

PROFESSOR PHIPSON says: "It is one of the most ingenious and useful discoveries of modern times."

GRIFFITHS' PATENT NEW ZINC WHITE is at present used by the English and other Governments as well as large private firms.

Full reports from the highest scientific authorities in the kingdom, gratis, on applying to any Agents of the "Silicate Paint Company," Liverpool. The following are a few who have reported on this new pigment:—

PROFESSOR BARFF, M.A., Lecturer on Paint and Colours to Society of Arts, Chemist to Royal Academy, &c.
JOHNSON & SONS, Assayers to Bank of England, H.M. Mint, Council of India, &c.
PROFESSOR LUTSCHAUNIG, Liverpool Assay Office.
DR. PHIPSON, Fellow of Chemical Societies of London, Paris, and Antwerp; and of Royal Society of Natural Sciences, Brussels.
H. C. BARTLETT, Ph. D., F.C.S.
T. A. BRITTON, Surveyor to Metropolitan Board of Works.
C. H. TOZER, Decorator, and other Practical Men in the trade.
